The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/539,741	Applicant(s) TURNER, DEREK	
	Examiner HAO D. MAI	Art Unit 3732	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This application contains claims 15-32 (withdrawn) drawn to nonelected invention(s) in the reply filed on 08/02/2007. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 112:

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. **Claims 1, 3-7, 11-14, and 35-39**, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

4. The independent claims 1, 7, 36, and 38, are directed to the embodiment of Figures 5a-5b; and therefore are no longer generic nor drawn to the embodiment of Figures 3a-3d as previously claimed. The claims each recites "the torque lock having a non-circular cross-section complementary to the torque lock portion of the tool shaft" (claim 1 lines 22-23; claim 7 lines 14-15; claim 36 lines 22-23; claim 38 line 20). There is no support from the written specification for the torque lock 210 (Figs. 5a-5b) having a non-circular cross-section complementary to the non-circular torque lock portion 83 of the tool shaft. In fact, Figures 5a-5b shows a generally circular torque lock 210 that is not complementary to the non-circular torque lock portion 83 of the tool shaft.

Art Unit: 3732

5. It seems the Applicant has combined the embodiment of Figures 3a-3d featuring the non-circular locking boss 82 and complementary non-circular locking socket 35 with the embodiment of Figures 5a-5b featuring the spindle having torque lock 210, torque transfer element 230 and retaining element 240. There is no support from the specification as originally filed for such combination *and the enablement thereof* of the two embodiments.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. **Claims 1, 3-7, 11-14, and 35-39**, rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- The recitations "symmetrical to the axis of rotation" (claim 1 line 3; claim 7 line 4; claim 36 line 3; claim 38 line 3) are unclear and inconsistent with what is shown in Figure 3d. Such recitation should be "having rotational symmetry".

Response to Arguments

8. Applicant's arguments filed 05/06/2009 have been fully considered but are moot in view of new ground(s) or rejection under *35 USC § 112*, first paragraph.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing

Art Unit: 3732

date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HAO D. MAI whose telephone number is (571)270-3002. The examiner can normally be reached on Monday-Friday. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cris Rodriguez can be reached on (571) 272-4964.
